Introduction

FOR THE TEACHER

The purpose of these activities is to introduce students to the many features of Career Cruising's EDP tool. If you are not familiar with the EDP tool, you can use these activities as a walkthrough of its functions and features.

There are nine activities that take students through the sections of their EDP:

- 1. Creating Your EDP** introduces students to the concept of a career portfolio and helps them create their own EDP.
- 2. Career Matchmaker** shows students how to complete the Matchmaker assessment and access their results in their EDP.
- 3. Careers That Interest Me** allows students to save careers that they are considering to their EDP and record their thoughts about these careers.
- 4. Schools That Interest Me** helps students find schools that offer the education and training they need to pursue their career goals and save those schools to their EDP.
- 5. Scholarships & Financial Aid** helps students find and save information about scholarships and other financial aid programs for which they qualify.
- 6. High School Education Plan** helps students create a personalized high school education plan based on their career interests.
- 7. Career Preparation & Planning** shows students how to record and organize their career planning activities.
- 8. Activities & Experiences** helps students document their extracurricular activities, skills and abilities, the awards and certificates they have received, and their work and volunteer experience.
- 9. Using the Resume Builder** takes students through the process of using their EDP to create a professional resume.

Note: Most of the sections in the EDP and Resume Builder tools can be enabled and disabled using the Career Advisor Management System (CAMS), so it is possible that some users may not have access to all of these features. Before you begin, please consult with your site administrator to make sure the sections covered in these activities are enabled at your school.

My EDP Activity 6: High School Education Plan

Page 1 of 2

The EDP tool allows you to create and store your high school education plan by recording the courses you have taken, are taking, and plan to take in the future. With your counselor's advice, this education plan will help you organize your courses to meet your career goals.

SOME THINGS TO CONSIDER . . .

There are a lot of factors you need to consider when putting together your education plan. What level of education do you need in order to pursue your career goals? What subject areas are important for your career path? You need to choose courses that will meet the requirements of the post-secondary programs you want to enter after high school. If you are planning on attending a 4-year college, you will need more advanced academic-level courses. If you are planning on attending a 2-year college or completing apprenticeship training, then you may want to take more applied courses.

You also need to ensure that your education plan fulfills your school's graduation requirements.

In order to fill out your high school education plan, you will need to have a list of the courses available at your high school.

(Note: The subjects listed here are suggested course areas, not actual courses. This is a starting point for thinking about which courses to select.)

Step 3. In consultation with your counselor, select courses that interest you and will help you meet your career goals. Be sure that you have included the prerequisites (*i.e., courses you have to pass before you can take a particular course*) for all the upper year courses you want to take.

SOME THINGS TO CONSIDER WHEN WRITING A RESUME

Your resume is your introduction to potential employers. It is a summary of your qualifications, outlining your skills, abilities, and experience. The goal of a resume is to tell an employer why he or she should hire you.

Be honest – Don't list skills or experience you don't have.

Be brief – Employers are looking for a summary of your qualifications, not a biography.

Be relevant – Limit your resume to what might be of interest to potential employers.

Proofread – Make sure your resume has no spelling or grammatical mistakes.
